We have been looking at all of the bricks in our entry walkways and realized that we know only some of the stories behind them. We would appreciate it very much if you told us something related to the message(s) on the brick(s) that you contributed. For example, are you a long time resident (since when) or a long time visitor (since when) or did you 'discover' our town recently? Did you camp on the beach or stay in a particular motel or condo? Did your grandfather or great uncle used to bring you here fishing since you were (age)? Or did you 'discover' our town recently? Did you have a Farley boat? Did you fish the beach? Offshore? Did you have a very favorite watering hole? Where you did?? Did you know a 'special' old-timer? Is there a special event that relates to what is on the brick? In other words, please tell us a story that will add to the history we want to keep, and would love to archive, for everyone else to enjoy.

Please add your story below or, if you would like to think it over, send it by e-mail to [paphanewsletter@gmail.com](mailto:paphanewsletter@gmail.com).

Or you may mail it to:
